

Hi there, I am

WAJID ALI

With experience in multiple languages like Java, Python, C++ etc, I have developed dozens of software ranging from personal portfolio websites for students and professionals to safety critical systems like health monitoring system. I particularly specialize in web development.

“

I'm hungry for knowledge. The whole thing is to learn every day, to get brighter and brighter. That's what this world is about. You look at someone like Gandhi, and he glowed. Martin Luther King glowed. Muhammad Ali glows. I think that's from being bright all the time, and trying to be brighter.

”

School and College

American Grammar School

Roots Millennium College

FAST University

Projects

Pharmacy Management System

Restaurant Management System

Android Spy Camera App

Tic Tac Toe Game

Medical Chatbot

Android Repackaging Attack

Courses Attending

Major Courses

- Web Engineering
- Artificial Intelligence and Python
- Process Optimization
- Data Structure with Java
- Programming Fundamentals in C++
- Database Systems
- Information Security

Minor Courses
